

**WE ARE  
JUST  
GETTING  
STARTED**

**THE THIRD PETROLEUM ENGINEERING OLYMPIAD**

**Oilympic**

**2019 MARCH 7<sup>th</sup>**

**SHARIF UNIVERSITY OF TECHNOLOGY**

## MORE ABOUT US

educational and research-oriented olympiads in both national and international levels are usually held with the aim of screening the elites in academia and industry, while making a comprehensive data bank in specific fields. Oilympic is divided into two education and research-oriented divisions so as to reach the abovementioned goals. We also aim at increasing the motivation of students to work as a team, and let them exploit their creativity to come up with innovative ideas. This is our solution to enrich the industry with amazing new ideas and storgnly improve the relationship between academy and industry.

### Database

Providing access to a huge data set including more than 10000 young elites of iranian oil and gas industry.

### Build trust

Supported and validated by famous governmental organizations.

### Advertising

In addition to take part as a participant, you can establish your future rapport with iranian oil and gas research centres and institutes.

### SCIENTIFIC SECTION AUDIENCES

Petroleum engineering students and students of other fields of study in the bachelor's degree.

### RESEARCH SECTION AUDIENCES

Students of all fields of study and degrees as well as employees of public and private companies.
